CXO Nexus' CIO InCight™ Application Extension for SAP® Ariba® on SAP® App Center Delivers Real-Time Visibility into Category and Vendor Spend

By integrating with SAP solutions, the CIO InCight™ Dashboard from CXO Nexus delivers real-time, SaaS-based vendor spend analytics to enterprises

NEW YORK - **Sept. 3, 2019** - *PRLog* -- **CXO Nexus** today announced that its **CIO InCight™ Executive Dashboard** solution is now available for purchase on the **SAP® App Center**. **The CXO Nexus CIO InCight™ Dashboards integrate with SAP Ariba intelligent spend management solutions to deliver real-time visibility into category and vendor spend. The intuitive, metrics-based dashboards are customizable, enable supply chain optimization and improve C-suite collaboration.**

CXO Nexus empowers finance, lines of business and procurement to do their jobs more effectively via real-time visibility into vendor spend by function or persona, such as IT, with its CIO InCight™ platform. By applying Artificial Intelligence and Machine Learning to classify, standardize, and normalize vendor spend, the CXO Nexus InCight ™ platform provides new capabilities on top of SAP Ariba . The platform also provides historical trends and is the only solution that details granular OEM spend, regardless of the channel or reseller .

The CIO InCight™ platform seamlessly overlays company spend against peer trends and benchmarks that are derived from industry aggregated data, revealing risk and diversity scores, contract details and existing business relationships. Armed with this information, organizations can control costs more effectively, manage their vendor relationships and foster collaboration across the business.

"Our platform gives companies who want to propel their businesses forward granular, real-time spend insights," said Ken Male, CEO of CXO Nexus. "We are thrilled to provide the CXO Nexus CIO InCight™ dashboards to a new audience of decision makers via the SAP App Center."

The SAP App Center gives customers access to more than 1,600 innovative partner solutions that complement and extend their SAP solutions, enabling digital transformation of their business. SAP App Center customers can buy solutions directly from partners and centrally manage purchases, billing and vendor communications.

About CXO Nexus

CXO Nexus uses ArtificiaI Intelligence and Machine Learning to classify, standardize, and normalize vendor spend data. The CXO Nexus platform is an agnostic enhancement to all financial systems, enabling companies to control costs, manage vendor relationships, and optimize collaboration across the business.
